MTSU Sustainable Campus Fee Funding Request Form

The Sustainable Campus Fee (SCF) supports projects that advance sustainability at MTSU. This form allows students, faculty, and staff to propose initiatives that contribute to a greener campus through energy efficiency upgrades, infrastructure improvements, education, research, and efforts to enhance campus biodiversity.

There are 5 sections to the application: Section I: Contact Information, Section II: Project Category, Section III: Project Description, Section IV: Project Cost, and Section V: Project Performance Information (For applicable projects).

The Sustainable Campus Fee is administered through a partnership with the Office of Student Affairs, the Center for Student Involvement & Leadership, and the Center for Energy and Sustainability (CES).

Date Friday, August 29, 2025

Request Number ***SCFR25000018***

1. Name Wendy Jones

Email wendy.jones@mtsu.edu **Phone Number** (615) 904-8548

SECTION II: Project Category

Please note that all proposed projects will have to comply with MTSU campus guidelines and recommendations.

1. Select the category that best describes the project. (Select One - See Descriptions Below)

Biodiversity

CATEGORY DESCRIPTIONS

Energy Conservation/Efficiency - (e.g. installing LED light bulbs, adding insulation to walls, replacing old appliances with energy-efficient models, installing programmable lighting, etc.)
Renewable Energy - (e.g. implementing projects to harness naturally replenishing sources like wind, water, and sunlight to generate electricity - like solar-powered picnic tables, etc.)
Sustainable Transportation - (e.g. installing covered bike racks, replacing fuel vehicles with electric vehicles, etc.)
Alternative Fuels - (e.g. setting up electric vehicle charging stations, implementing hybrid or electric vehicles, purchasing electric or propane power equipment, etc.)
Recycling - (e.g. purchasing recycling bins, improving signage, recycling difficult materials, etc.)
Waste Reduction - (e.g. establishing a reuseable to-go container program, reducing food waste, installing waterbottle filling stations, etc.)
Water Conservation - (e.g. purchasing rain barrels, creating a rain garden, switching to low-flow water fixtures, installing low-flow water valves, etc.)
Biodiversity - (e.g. planting pollinator garden, tree planting, installing bird boxes, etc.)
Education - (e.g. hosting a sustainability fair to raise awareness about green practices, hosting bike repair and/or safety workshops)
Research and Innovation - (e.g. researching the effects of microplastics, solar feasibility study, etc.)

SECTION III: Project Description

Please include as much detail as possible in this section. The more information you provide, the better equipped the adjudication committee will be to fully understand your request and make an informed decision.

To expand a text box, click and drag the two diagonal lines in the bottom-right corner. This allows you to adjust the size and view of your content as you type.

1. Project Title

JEWL Seed Library Maintenance

2. Scope: Work to be accomplished

We would like to purchase seeds, supplies and promotional materials for the JEWL Seed Library. We will purchase seeds from online vendors and explore donations from seed companies and the MTSU School of Agriculture. The seeds will be broken down into smaller portions and kept in labeled envelopes in a library card catalog cabinet. Library patrons will be able to take envelopes of seeds home to grow on their own. Staff and student workers will restock the seed cabinet when needed.

We will host two events to promote the JEWL Seed Library. One event will be held in the spring 2026 semester to promote spring and summer planting, and one in the fall 2026 semester, to promote fall and winter planting. During these events, we will hand out promotional items such as buttons, flyers, seed starter kits, etc.

3. Scope: Benefit Statement

During the past year, the JEWL Seed Library has successfully promoted sustainability, biodiversity, healthy eating, and experiential learning opportunities at Middle Tennessee State University.

Seed varieties on offer at the JEWL Seed Library are carefully curated to both encourage biodiversity and to ensure that they can be successfully grown in our geographical area. Seed purchases are limited to open pollinated, or heirloom varieties. This allows our seed library to showcase plant varieties that are rare and/or native to middle TN. By choosing these varieties, we can contribute to local and statewide efforts to protect native plant species along with providing plants that have stood the test of time worldwide.

4. Location of Project

The JEWL Seed Library is currently located in the MTSU James E. Walker Library. It is housed on the 1st floor of the library near the Reference Desk.

5. Participants and Roles

The ongoing maintenance of the seed library is headed by Wendy Jones, Access Services Coordinator, and Ginelle Baskin, Open Education Librarian. We will collaborate with multiple departments on campus. We will contact the MTSU School of Agriculture to source seeds and to provide opportunities for service to the members of the Plant and Soil Science Club.

6. Student Participation in the project and/or Student Benefit from the project

Student workers from the Walker Library will participate in ongoing maintenance of the seed library. They will be assigned duties including stocking the library cabinets, breaking down seed packets into smaller envelopes, attaching labels, and performing stock inventory at the end of each semester.

The campus community will be able to take home packets of seeds that are appropriate to the season and to their living arrangements. They will be able to choose from a diverse range of flowers, herbs, and vegetable seeds. The plants that they grow will give patrons the opportunity to learn about agriculture and food origins.

7. Future Operating and/or Maintenance Requirements

The JEWL Seed Library requires a rotating stock of seeds. When seeds are out of season, they are stored within the library until the appropriate time to plant. The seed library is monitored to ensure proper stock rotation.

Supplies must also be monitored to ensure that there are enough items to meet demand.

Maintenance is ongoing but is easy to manage by library staff and student workers.

8. Additional Comments or Information Pertinent to the Proposed Project

The costs covered in our project proposal include flower, fruit, herb and vegetable seeds, supplies for seed maintenance, envelopes, labels, and promotional materials and supplies for our twice-yearly events.

Since its inception, the JEWL Seed Library has been an exciting addition to both the Walker Library and the campus community. With continued funding, the seed library will be able to continue promoting biodiversity and providing opportunities for sustainability to our MTSU campus community.

https://library.mtsu.edu/seedlibrary

Any supporting documents or attachments will be on the pages following the SCF Request.

Note, all projects are expected to be completed by December 31, 2026.

SECTION IV: Project Costs

1. Project Cost Estimate 4500.00

2. Source of Estimate

The JEWL Seed Library is a popular addition to the library and will require an increase in funding to continue providing services. Walker Library Administration will provide $400 towards the project.

The estimate for our project cost includes the following categories:

Vegetable, fruit, and herb seeds (Vendors: Baker Creek Seeds and Freedom Farms. Projected price: $2,743.00).

Envelopes, envelope labels, and self-adhesive tabs for seed packets (Vendors: Amazon, Staples. Projected price: $1,257.00).

Upright freezer to store unused seeds. Cold seed storage enables us to prolong seed viability (Vendor: Walmart. Projected price: $250.00).

Promotional materials such as prizes and giveaways for our two annual events. These items will be related to seed growing and maintaining (Projected price: $250.00).

3. Has previous funding from this source been awarded? Yes

If Yes, please explain how this request differs from previous funding request. We are requesting funding to provide ongoing maintenance to the JEWL Seed Library and to expand the program.

SECTION V: Project Performance Information

If your project is expected to reduce energy consumption (e.g. through lighting upgrades or HVAC improvements etc.), please provide an estimate of potential savings. Feel free to contact the Center for Energy and Sustainability for help making these calculations at ces@mtsu.edu.

1. Estimated Annual Energy Savings (Estimated in kW, kWh, Btu, etc.)

2. Annual Energy COST Savings ($)

3. Annual Operating Cost Savings or Other Cost Savings. Specify in dollar amount, if applicable. ($)

4. Matching or Supplementary Funding (Identify and explain, if applicable)

The James E. Walker Library will provide $400 towards funding the project.

Acknowledgment

I acknowledge that a project summary and photo must be submitted, if I am awarded funding and upon completion of the project.

Supporting Documentation or Attachments if provided.

Seed Library Budget

Project Materials:	**Projected price:**	
Vegetable, fruit, and herb seeds	$2,743.00	Approximately 1000 seed packets
Supplies	$1,257.00	Includes envelopes, labels, and self-adhesive tabs
Upright Freezer	$250.00	Upright freezer to store unused seeds. Cold seed storage enables us to prolong seed viability.
Promotional Materials	$250.00	Prizes and giveaways for our two annual events. These items will be related to seed growing and maintaining.
	$4,500.00
